GIFT OF PHOTOGRAPHS

Recently a gift of fourteen photographs in black and white and two in color of the work of Arnold Newman were given to George Eastman House. Mr. Harold Kaye made it possible for the photographer to print a few sets of his finest pictures and also made them available to the museum.

David Hare by Arnold Newman, 1952. One of several photographs recently given to Eastman House. Mr. Newman is well known for the employment of background and environmental material to augment his portraits. David Hare, a sculptor, is shown with an exceptionally stark environment which expresses something of the character of the sculptor and his work.
